

CHHA Report April 2021

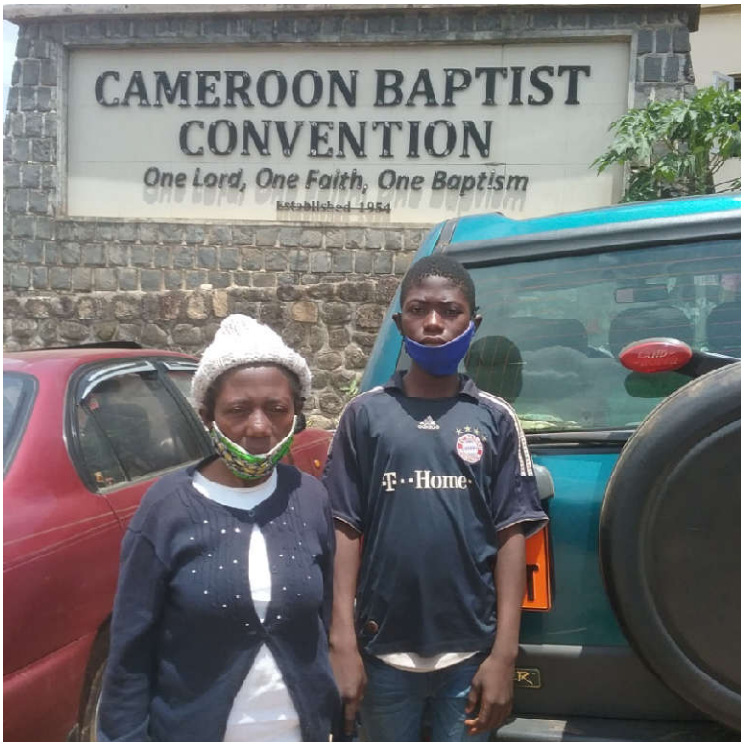

Mme Anna Acha and son at the hospital for second check up.

President and the Ophthalmologist of the Mbingo Baptist hospital. He explained the situation Of Mrs. Anna which could have been resolved through a surgery years back. We can only assist her now to manage the situation to avoid injuries and pain.

Guiding Mrs. Acha to the car.

Another visit to the optamologist. Mrs. Acha is trained with techniques required by visually impaired to move around especially in an urban area.

Mr. Babila Alfred, needy old man from Bali Nyongha at the Regional Hospital Bamenda.

The president explains to the handicapped and sick old man that CHHA has sent us to assist him.

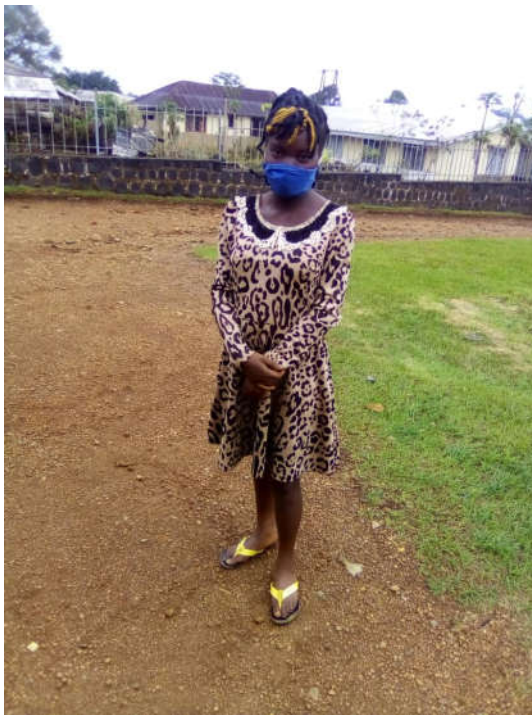

Mr. Babila smiles when the news of assistance is delivered. His daughter who had not been able to do the prescribed laboratory examinations and purchase drugs thanked CHHA as God sent.

Pose with T-shirt, cap and mufflers of CHHA and CHAHANSA.

Stickers of CHHA are now available.

Miss Mbongeh is 18 years old and living with aunt in Bali Nyongha. We promised to give her small assistance because she and her aunt have been encouraged to work hard too.

She will however benefit from the rehabilitation scheme to get her back to college after her child can be handed to her relatives.

Miss. Boghema Melanie an eighteen year old is about 4 months pregnant. Mrs. Loveline of the Catholic Health Center Bali recommended her for assistance. We have not met her because of Covid restrictions on our activities. She had her first antenatal clinic consultations and we have reports that she is doing fine.

We can see the visible smile on the face of Melanie put by the support of CHHA.

Broad smile in the Lugos.

We worked mostly from home as instructed by CHHA. We contacted most of the people we had appointments with.

Imperatives like medical appointments were respected. We went to Mbingo Baptist Hospital and the regional Hospital twice.

Commitments with some school authorities were met through money transfers.

We had to put a notice on the office door to suspend activities there, till further notice. Those who called us were advised to wait for the health climate to improve.
